

Why I would only recommend USANA Nutritionals
for People and their Pets?

In my mind there is only one choice for quality vitamins, minerals and optimizers for our pet's health. USANA's supplements are paws down the best product available. I've seen dramatic results by using the products and have received numerous e-mails from other pet owners who have improved the quality of their pet's life by using USANA products. Our mission is, "to improve the quality of pets' lives, one pet owner at a time."™ USANA's supplements help make a difference that will last a lifetime. Thom Somes, "The Pet Safety Guy"

USANA Product	Dosage by Weight				Benefit
	up to 25 lbs	26-50 lbs	51-100 lbs	100+ lbs

Essentials MultiMineral	1/2 per day	1/2-1 per day	1-2 per day	2-3 per day	Protects from oxidative stress. Supports optimal cellular health.
Usananimals	No longer recommending: contains xylitol http://www.avma.org/onlnews/javma/oct06/061001b.asp				
Procosa II	1/2 per day	1-2 per day	2-3 per day	3-4 per day	Optimal joint health. Improves range and use of movement.
Proflavonol	1/2 per day	1/2-1 per day	1 per day	1 per day	Supports immune system and circulatory functions.
OptOmega	1/2 tsp. per day	1/2 tsp. per day	1 tsp. per day	1 tsp. per day	Supports healthy skin and coat.

The above dosage recommendations are for Optimal Wellness for dogs and cats. The dosages for each item are listed by weight and the individual dosage should be divided in half and should be given twice a day (am/pm), once with each meal. Please check with your veterinarian before giving any supplements to your pets. For most of the products the dosages have been extrapolated from the recommended human dosage based on a 160 lb person.
